INDEX

Every product of ours is a reflection of our 15+ years of industry expertise and our relentless focus on quality.

Verix Hinges is driven by the vision of Manoj Gunjariya and his son, Preet Gunjariya.

Manoj, with decades of industry expertise, laid the foundation for the brand's quality-first approach and global expansion.

Preet, bringing fresh perspectives and modern business strategies, plays a key role in driving innovation, operational excellence, and international market growth—together ensuring Verix Hinges remains a trusted name worldwide.

FOUNDERS

We have a **State-of-the-Art** **INFRASTRUCTURE**

Our infrastructure is the backbone of our manufacturing excellence. Located in **Ahmedabad**, our facility is equipped with advanced machinery, precision tools, and automated production lines that allow us to produce high volumes without compromising on quality. From raw material handling to final packaging, every process is streamlined for speed, accuracy, and consistency.

We maintain dedicated zones for **cutting, forming, welding, polishing, assembling, and quality control** — each operated by skilled technicians and supervised by industry professionals. This in-house capability not only ensures faster turnaround times but also enables us to meet custom specifications and bulk orders with ease. With a focus on continual improvement, we regularly upgrade our equipment and adopt best practices to stay ahead of market demands.

Verix Hinges is committed to delivering products that reflect precision engineering, durability, and international quality standards — all made possible by the infrastructure we've built with care and vision.

About Us

Verix Hinges is a leading manufacturer and exporter of premium stainless steel hinges, based in Ahmedabad, Gujarat. With over fifteen years of experience, the company specialises in producing high-quality SS butt hinges, bearing hinges, door hinges, window hinges, furniture hinges, and customised fittings.

Using superior-grade stainless steel—such as SS 202, 304, and 316—Verix ensures corrosion resistance, durability, and a refined finish in every product. A fully equipped in-house facility and strict quality control processes guarantee precision and consistency.

Today, Verix Hinges proudly serves clients across India and exports to countries including Sri Lanka, Bangladesh, UAE, USA, UK, Canada, Australia, Japan, Russia, and multiple regions in Africa, offering tailored solutions with competitive pricing and on-time delivery.

Established Legacy **15+ Years** in the Industry

With more than fifteen years of experience, our company has firmly established itself as a pioneer in the premium stainless steel hinges market. Our long-standing presence is built on a foundation of quality craftsmanship, customer trust, and product innovation. Since our inception, we have consistently delivered durable, corrosion-resistant, and precision-engineered SS hinges to meet the diverse needs of clients across residential, commercial, and industrial sectors.

Over these years, we've evolved with the market—investing in modern manufacturing technology, adopting global quality standards, and expanding our product range to meet changing design and performance demands. Our commitment to excellence has earned us the loyalty of dealers, architects, hardware distributors, and international buyers alike. From supplying in Ahmedabad to exporting worldwide, we've grown into a name that stands for reliability, consistency, and long-term value.

Global Reach **Exporting Worldwide**

Verix Hinges is widely recognized as one of the leading SS hinges manufacturers in India, offering unmatched quality, precision, and reliability in every product we deliver. We specialize in manufacturing SS Butt Hinges, SS Bearing Hinges, and a wide range of architectural and industrial-grade hinges that meet both domestic and international standards.

Headquartered in Ahmedabad, Gujarat, our state-of-the-art manufacturing facility is equipped with advanced machinery, skilled technicians, and a dedicated quality control team to ensure every hinge we produce is flawless, durable, and functionally superior. Whether it's for residential, commercial, or industrial use, our products are trusted by architects, builders, hardware distributors, and OEM clients across India.

With three decades of experience, a commitment to innovation, and a customer-first approach, we continue to set benchmarks in the hinges industry — both in India and worldwide.

Assurance of **Our Quality**

We follow a strict quality control protocol to ensure that each stainless steel hinge meets the highest standards of strength, precision, and durability. From raw material inspection to final packaging, every batch undergoes rigorous checks for dimensional accuracy, surface finish, corrosion resistance, and load-bearing capacity. Our in-house QC team is equipped with advanced testing tools and follows documented procedures aligned with international standards. Whether it's **SS 202**, **SS 304**, or **SS 316** grade hinges, we guarantee consistent quality and flawless performance in every piece. Defective or subpar products never leave our facility — ensuring our clients receive only the best.

Why Us?

We don't just manufacture SS hinges — we deliver value, durability, and trust with every piece.

Here are the six essential benefits that make us the preferred choice for suppliers, builders, and exporters across India and beyond.

Premium-Grade Stainless Steel

We use only high-quality stainless steel (SS 202, SS 304, SS 316) that resists corrosion, offers excellent strength, and ensures long-lasting durability in all weather conditions.

Precision Engineering & Finish

Our hinges are designed with exact tolerances and smooth edges, ensuring easy installation, noise-free operation, and a flawless finish that enhances the look of any door or window.

Quality isn't just a step

It's a commitment embedded in every stage of our manufacturing process.

Customization as per Your Needs

From size, thickness, and finish to packaging and branding — we manufacture custom SS hinges tailored to your specific project or market requirements.

In-House Manufacturing Excellence

With our fully equipped facility in Ahmedabad, we maintain strict quality control at every stage of production, resulting in consistent product performance and fast lead times.

Competitive Wholesale Pricing

Whether you are a local supplier, contractor, or international buyer — our factory-direct pricing ensures you get the best value without compromising on quality.

Export-Ready with Global Standards

We are experienced exporters with secure packaging, bulk capacity, and compliance with international quality norms — making Verix Hinges your ideal global partner.

Customise Hinges

We can provide custom services based on your drawings, samples, and requirements. Whether it's mass production with Molds or small-batch handmade manufacturing, we can accommodate your needs.

We specialize in made-to-order SS hinges tailored to your size, design, and finish requirements. Get our custom solutions that fit your exact needs — built with precision, delivered on time. We combine 15+ years of experience with modern manufacturing techniques to deliver premium customized hinges.

Here's how we ensure precision and satisfaction in every order :

01 Understanding Your Requirements

We start by listening. our team connects with you to understand your hinge requirements — dimensions, material, load-bearing capacity, finishes, and any special applications (e.g., for doors, windows, machinery, etc.).

02 Technical Design & Engineering

Our in-house design team creates detailed technical drawings or works from your provided specs. We ensure all hinge designs are optimized for durability, performance, and ease of installation.

03 Material Selection

Depending on the application (e.g., stainless steel for marine, mild steel for general use, brass for decorative), we source high-quality raw materials suited to your project needs.

04

Precision **Manufacturing**

Using advanced machinery and skilled technicians, we manufacture your hinges with strict quality control processes including cutting & forming, slitting, punching, drilling & slotting, polishing / buffing / surface preparation.

05

Surface Treatment & **Finishing**

We offer multiple finishes including powder coating, electroplating (zinc, chrome, nickel), polishing (glossy, matt, satin) and custom finishes on request.

06

Quality **Inspection**

Each batch undergoes rigorous quality checks covering dimensional accuracy, load and movement tests, surface finish inspection, rust/corrosion resistance testing.

07

Packing & **Dispatch**

We ensure secure, damage-free packaging suitable for bulk transport. Orders are dispatched on time with proper documentation and tracking for smooth delivery.

08

After-Sales **Support**

Your satisfaction is our goal. We offer full support post-delivery — whether you need installation guidance, replacements, or feedback support.
